

## PHEDRA DAILY CLEANING & RESTOCKING

At least once a day, use a damp cloth (with detergent when required) to wipe down the Display (a), Keypad (b) and Beverage Dispensing Outlet (c).

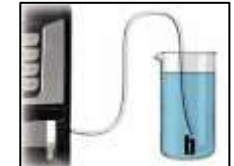

As required, remove and empty the Beverage Dispensing Unit (c), Drip Tray (d) and Dreg Drawer (e) (see below)

### Cappuccinatore

At least **TWICE** a day (i.e. mid-morning and end of day) clean the cappuccinatore:

1. Place clear tube in a glass of cold water
2. Place an empty glass under dispenser
3. Press the "Hot Milk" button. When complete press "Hot Milk" again to repeat.
4. Place tube back into milk container and machine is ready for use.

### Refilling Product Canisters

1. Open cover of canister you wish to fill.  
**NB: ONLY OPEN THE COVER OF THE CANISTER YOU WISH TO FILL (e.g. If filling hot chocolate canister make sure that cover to coffee beans canister is closed.)**
2. Slowly empty contents into canister – take care not to over fill. Close cover carefully ensuring all tabs line up correctly. Do not force.

Please call 0423 980 500 if you have any problems setting up or using the coffee machine.

## PHEDRA WEEKLY MAINTENANCE

### Brew Group

1. Remove beverage dispensing outlet

2. Open and lift cover. Remove drip tray and dreg drawer

3. Disconnect hose from dispensing arm

4. Remove brew unit

5. Rinse under cold running water

6. Reinsert brew unit.
7. Reconnect hose to dispensing arm
8. Reinsert drip tray and dreg drawer.
9. Close cover carefully, ensure all tabs fit correctly – do not force
10. Reinsert beverage dispensing unit

### Cappuccinatore

Once a week, follow the SAECO PHEDRA CAPPUCCINO instructions provided and use Milk Cleaning Solution to remove milk protein from the Cappuccinatore.
